nature's SPIRIT in OLIVES

Kalamon Olives come from the famous Kalamata region of Greece. Plump, fleshy olives, full of flavour. They have naturally black - brownish colour and a little softness in texture as they mature on the tree. The colour of Kalamon olives is not uniform because of the natural process, it depends on the side of the tree where they are and the exposure to sun - rays. Those exposed more to the sun tend to be darker in colour.

Offered as whole, pitted or even in halves. Eat on their own as a fingerfood and appetizer or add to casseroles and salads, particularly classical Greek salad. For many, the tastiest olive you can eat.

Our company sells the highest quality, most fragrant and sweet oranges, carefully picked from certified crops. The varieties offered are as follows: Merlin, Navel and Valencia, waxed, netted and boxed in cardboard.

AVAILABLE IN: PLASTIC NET PACKAGING (1-2-3-4-5 kg) AND PAPER PACKAGING (10-20 kg)
